TECHNICAL SKILLS

Backend

PHP 8+, Laravel 11+, REST APIs, Queue Workers, Microservices, SOLID Principles

Frontend

React.js, Livewire, Inertia.js, Alpine.js, Tailwind CSS, JavaScript (ES6+)

Database

MySQL, PostgreSQL, Redis, Memcached, Query Optimization, Indexing

DevOps & Cloud

Docker, AWS (EC2, S3, RDS), CI/CD, Linux

Tools

Git, GitHub, GitLab, Jira, Postman, PhpStorm,

AI-Assisted Engineering

Claude, Copilot, Cursor, ChatGPT, Ollama

CERTIFICATIONS

- Code Generation with Generative AI
- Advanced Prompt Engineering
- Claude AI Fundamentals
- SQL Query Optimization & Fundamentals es
- Cyber Security Leadership
- Cyber Hygiene & Digital Security
- HackerRank: 150+ problems solved

EDUCATION

B.Sc. in Business Information Technology

University of Greenwich, UK
First Class Honours · 2017

LANGUAGES

Bengali — Native
English — Advanced
Arabic — Read & Write

KEY STRENGTHS

- Multi-tenant SaaS & ERP architecture
- High-load API performance tuning
- Team leadership & mentoring

MD. MOSHIUR RAHMAN

Senior Software Engineer · Technical Lead · Laravel · React · SaaS · ERP · FinTech

PROFESSIONAL SUMMARY

Senior Software Engineer and Technical Lead with 9+ years of experience architecting and delivering enterprise SaaS, ERP, and FinTech platforms. Known for cutting a 12-second API to under 1 second, building queue-based pipelines that reliably process 40,000+ records, and leading cross-functional engineering teams of 8+ developers. Combines deep backend expertise with a strong product mindset — focused on systems that scale, stay reliable, and genuinely solve business problems.

PROFESSIONAL EXPERIENCE

Software Specialist | SSL Wireless, Dhaka

Oct 2023 – Present

- Reduced API response time from 12s to under 1s (90%+ improvement) via Redis caching, indexing, and query rewriting
- Designed a queue-based background pipeline processing 40,000+ records reliably at scale
- Built high-throughput backend services for large-scale transaction and operational workflows
- Introduced Docker-based deployment workflows, bringing dev and production into full environment parity

Software Engineer → Technical Lead | Japan MDB Co. Ltd., Dhaka

Aug 2016 – Sep 2023

Technical Lead

- Architected and delivered scalable multi-tenant SaaS platforms for enterprise clients
- Led sprint planning, technical estimation, and architecture reviews across multiple concurrent projects
- Mentored 5+ engineers; enforced PSR-12 standards through code reviews, raising code quality

Senior Software Engineer

Jan 2020 – Sep 2023

- Developed and optimized backend systems and REST APIs for enterprise-scale applications
- Improved performance through intelligent database design, query tuning, and caching strategies

Software Engineer

Aug 2016 – Dec 2017

- Built backend services powering web and mobile integrations; explored computer vision with OpenCV

Junior Software Engineer | Daffodil Japan IT Ltd., Dhaka

Apr 2016 – Jul 2016

- Customized PrestaShop eCommerce solutions; built WordPress themes including news portals

Earlier Career (2012 – 2016): Freelance PHP developer on Upwork delivering 10+ CMS-based projects (WordPress, PrestaShop) for international clients, alongside early-career web development and IT support roles at Daffodil Institute of IT.

KEY PROJECTS

Enterprise ERP & Workflow Management System

- Architected a scalable multi-tenant ERP covering inventory, warehouse, LC management, booking, PI processing, and advanced reporting
- Optimized complex queries and caching strategies to deliver sub-second dashboard performance at enterprise scale

Virtual Recharge System — FinTech Platform

- Built a high-volume transaction engine with secure recharge workflows, trigger validation, and real-time monitoring
- Implemented async CSV import/export using Laravel Queues & Jobs — processing large datasets without blocking the main thread

Spectrum Pro — Business & Jira Dashboard

- Built an enterprise SDLC tracking platform bridging business stakeholders and engineering teams
- Engineered automated workflow stage transitions with real-time Jira API sync for tasks, sprints, and project updates

Open to senior engineering & technical lead opportunities
